Balustrade Solutions

Meticulously finished to the specifications of each unique project, Phoenix AG+M balustrade products are produced from the highest quality stainless steel (304/316L and 2205 Duplex) & PerfectEdge Laminated Glass. Distinguished by its design flexibility, durability & high-performance; our materials are often referred to as the “jewelry of the building”.

Phoenix AG+M Balustrade materials are furnished as turn-key architectural systems or stand-alone parts. All architectural systems include stamped shop drawings & structural calculations; and are often supplied with our Anti-Slip Glass, as well as structural supports, stringers, etc. As a component supplier we also provide cost-effective manufacturing of standard balustrade components and custom, low-volume orders.

QUALITY ▫ SERVICE ▫ VALUE = PHOENIX AG+M
